The Joinery

6 HAMPTON ST, LISMORE

The Joinery is a 3,000m² converted factory in the heart of Lismore, and will become NORPA's new creative home.

The space is currently in transition. While the full vision will unfold over the coming years, initial restoration works, focused on making the space safe and functional, are nearly complete.

The following photos show The Joinery mid-construction, but give a sense of the spaces available.

Photos by Jacq Driscoll, Elise Derwin, Natsky and Tajette O'Halloran

North Shed

18 m x 29 m | Height 4.1m to fan, 5.2 m to apex
